

PNC Xpress®

The Modern Way of Looking at PNC

Simplified PNC access for desktops, handhelds, and vehicles

As the leader in PNC provision to UK Forces, NDI is at the forefront of providing simplified enquiries for occasional PNC users. NDI has developed the PNC Xpress family: an easy to use series of interfaces for a variety of environments.

PNC Xpress Desktop presents PNC in an intuitive Windows-style interface. Navigation in a record becomes easy because the entire content of the record is displayed on one page. At the click of a mouse you can quickly access the information you need.

Key Benefits:

- ✓ Perfect for less experienced PNC users
- ✓ Intuitive interface
- ✓ Reduces training
- ✓ Improves productivity
- ✓ Easily switch to traditional screen view if required

PNC Xpress offers productivity efficiencies and **reduces training overhead.**

PNC Xpress Mobile gives operational Police Officers browser based access to PNC via BlackBerry, In-Car Mobile Data Terminals (MDTs) or Windows Mobile PDAs. The intuitive interface makes it easy for officers to use.

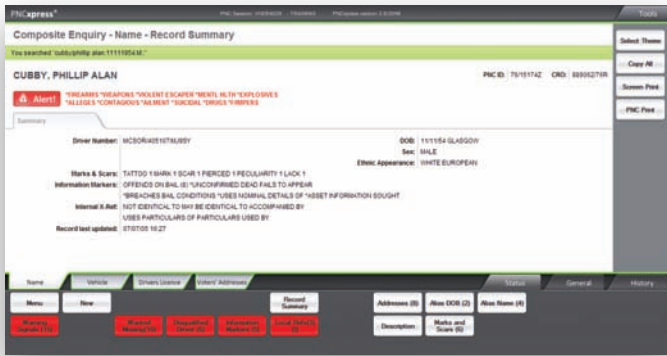

PNC Xpress enquiries include NE, VE, VK, DL, VM, VC and PE. With NDI's unique "Composite Enquiry" an officer can quickly carry out a single combined NE, VE (or VK), DL and QA with a summary of results returned for all transactions.

With our newly developed matching PNC Xpress CBT packages, your organisation will gain flexibility and control over how, where and when an officer will be trained on PNC.

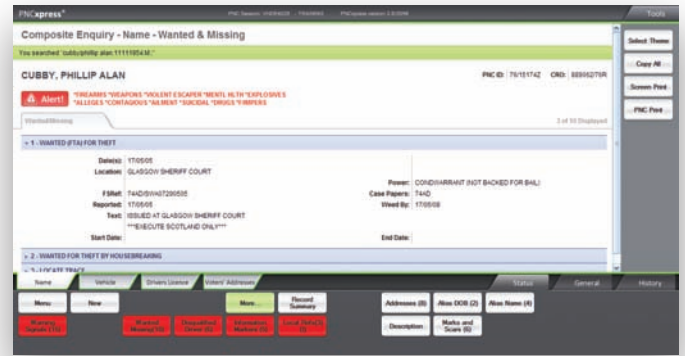

✓ **Matching CBTs** make training a snap
