- » Additional office facilities: Air conditioning / heating, Lighting, Storage area, hot water, hand wash facilities, meeting table with four seats, two operator positions
- » All systems fully compliant with statutory electrical testing requirements, health and safety legislation and the latest Home office requirements for ANPR (NAAS)

### High specifications ANPR Van equipped with the latest technology.

Since their introduction in 2002/2003 the Police Service ANPR Spectrum Vans have been a common sight on the UK roads.

In October 2008 Surrey Police chose NDI Recognition Systems Ltd (NDI-RS), as the leading provider of ANPR equipment, to replace its original Spectrum Van with a new state-of-the-art vehicle equipped with the latest and most advanced technology available in the ANPR market giving them a unique advantage in the fight to deny criminals use of the roads.

The new Surrey Police Van has been designed and equipped to the highest specification utilising NDI-RS's 'in house' design and consultation service. The van is equipped with NDI-RS's C3 Series cameras positioned on motorised pan and tilt units, NDI-RS's dual core processor installed with the Talon ANPR software, DVR recording and a 3G communications network capable of real-time access to the Police National Computer.

ANPR vans deployed nationwide provide a crucial crime fighting tool enabling Police officers to process in excess of 18 million number plates every month. NDI-RS are proud to be part of the success in assisting Surrey Police force to prevent and detect crime on the roads throughout Surrey County.

### NDI-RS ANPR van projects:

- » Experience in ANPR van design and installation: extensive staff knowledge gained from building in excess of 50 ANPR Vans
- » In house staff: Software, Engineering and Project Delivery staff to provide a complete end to end solution
- » Training: dedicated training staff for operators and administrators
